

# SEEDS FOR HAITI

Farmers in the mid-west sent one million assorted vegetable seeds to Margie Buster at Redland Tropical Gardens for consolidation and preparation for shipping to Haiti. Free shipping was secured from Haiti Shipping Cargo Services of Miami. The ship leaves for the Port of Cap Haitien in Haiti where One Village Planet President, Dan Warren, and South Florida Audubon Society President, Doug Young, will receive the seeds for distribution.

Organizations participating in Haiti in the distribution to farmers and villages for edible community gardening include: VillagePlanete, LaSociete Audubon Haiti, Alliance Francaise, South Florida Audubon Society, Broward County Haiti Relief Task Force, and other non-governmental organizations in Haiti.
